PPT - AP Biology Chapter 12: The Cell Cycle PowerPoint ...

Cell Cycle Somatic cells are cells that are not gamete cells. So, 46 chromosomes are in each somatic cell and somatic cells undergo MITOSIS. Mitosis: is the way that cells create more cells. Prior to mitosis, there is the interphase (which accounts for approx. 95% of the cell's life cycle process) phase which includes G1...

cycle? Concept 12.1 Cell division results in genetically identical daughter cells 3. What is the meaning of genome? Compare your genome to that of a prokaryotic cell. 4.

Chapter 12: The Cell Cycle

Cell division is part of the cell cycle, the life of a cell from its origin in the division of a parent cell until its own division into two. Concept 12.1 Cell division results in genetically identical daughter cells. Cell division requires the distribution of identical genetic material—DNA—to two daughter cells.
