### A. FARM BUSINESS AND CONTROL

Efficient managers want to be able to determine the position of a business at any point of time. They also want a basis for evaluating where the business is going on. This helps their control of the business operations overtime. Thus, the objectives of farm business at a particular point of time are:

# File Type PDF Farm Business Management and farm management ...

Farmers need to acquire more professional skills, not only in basic production but also in farm business management. Among these are risk management skills. Skillful farmers and other business people generally do not become involved in risky situations unless there is a chance of making money. Higher profits are usually linked with higher risks.
