Islamic Biomedical Ethics Principles and Application ...

Whereas in Western secular bioethics this subject falls within larger ethical theories and applications (utilitarianism, deontology, teleology, and the like), Islamic biomedical ethics has yet to find its natural academic home in Islamic studies. In this pioneering work, Abdulaziz Sachedina - a scholar with life-long academic training in Islamic law - relates classic Muslim religious values to the new ethical challenges that arise from medical research and practice.

Islamic Biomedical Ethics: Principles and Application ...

In addition, a Muslim physician derives his/her conclusion from rules of Islamic laws (Shari'ah) and Islamic medical ethics. The first main principle of Islamic Medicine is the emphasis on the sanctity of human life which derives from the Qur'an: "If anyone saved a life, it would be as if he saved the life of all mankind" 13. The verse says: The person who helps to preserve the life of even one person is the protector of the whole of humanity, for he possesses a quality which is
