In Living With a Wild God, Ehrenreich reconstructs her childhood mission, bringing an older woman's wry and erudite perspective to a young girl's impassioned obsession with the questions that, at one point or another, torment us all. The result is both deeply personal and cosmically sweeping-a searing memoir and a profound reflection on science, religion, and the human condition.

From the New York Times bestselling author of Nickel and Dimed comes a brave, frank, and exquisitely written memoir that will change the way you see the world. Barbara Ehrenreich is one of the most important thinkers of our time. Educated as a scientist, she is an author, journalist, activist, and advocate for social justice. In LIVING WITH A WILD GOD, she recounts her quest-beginning in childhood-to find "the Truth" about the universe and everything else: What's really going on? Why are we here? In middle age, she rediscovered the journal she had kept during her tumultuous adolescence, which records an event so strange, so cataclysmic, that she had never, in all the intervening years, written or spoken about it to anyone. It was the kind of event that people call a "mystical experience"-and, to a steadfast atheist and rationalist, nothing less than shattering. In LIVING WITH A WILD GOD, Ehrenreich reconstructs her childhood mission, bringing an older woman's wry and erudite perspective to a young girl's impassioned obsession with the questions that, at one point or another, torment us all. The result is both deeply personal and cosmically sweeping-a searing memoir and a profound reflection on science, religion, and the human condition. With her signature combination of intellectual rigor and uninhibited imagination, Ehrenreich offers a true literary achievement-a work that has the power not only to entertain but amaze.

Barbara Ehrenreich is an acclaimed social critic on both sides of the Atlantic, renowned for her trenchant, witty polemics, her pieces of journalism, and her trademark intelligence. She writes with unparalleled precision, insight and a rationalist's unwavering gaze. But in middle age, she rediscovered the journal she had kept during her tumultuous adolescence, which records an event so strange that she had never, in all the intervening years, written or spoken about it. It was the kind of event that people call a 'mystical experience' - and to a steadfast atheist and rationalist, was nothing less than shattering. In Living with a Wild God, Ehrenreich vividly explores her life-long quest to find 'the truth' about the universe and everything else, in an attempt to reconcile this cataclysmic, defining moment with her secular understanding of the world. The result is a profound reflection on science, religion and the human condition, and a personal insight into the inner life of one of our finest thinkers. It is a book that challenges us all to reassess our perceptions of the world and what it means to be alive.

Whip of the Wild God catapults you on a wild ride into 1839 BCE India....Ishvari, an angry and spirited girl plucked out of rural poverty to be meticulously groomed by tantric monks, is elected to serve as spiritual consort to Takshak, powerful monarch of Melukha. Her tumultuous journey--from terrified peasant to glamorous High Tantrika of Melukha--hurls her into the abyss of addiction. As she sinks into depravity, Ishvari violates the ancient Melukhan code of honor, infuriating Rudra-Shiva, the Wild God, and calling forth Takshak's sadistic revenge. And yet, as Ishvari flees for her life, now a notorious fugitive with a gold price on her head, the fire wisdom teachings she has grasped intellectually as a girl finally blaze into roaring life...here is a magnificent metaphysical saga you will find impossible to put down!

Journey into the Mystery of God's Presence Who our God is and how he works cannot be captured or contained. Our God is extreme. Our God is unstoppable, unfathomable, and untamable. Our God is wild. And he is beckoning us to pursue him beyond our circumstances, beyond our emotions, and beyond our logic into the glorious mystery that is him. Offering miraculous, inspiring stories of lives and circumstances transformed by the Holy Spirit, author and speaker Kim Meeder shows that God isn't calling us to fully understand him; he's calling us to fully trust Him. Here she gives practical, everyday ways to pursue him more passionately and to trust him more fiercely. The wild beauty and glory of our God are calling. And in this hallowed, thrilling place, we will see his face reflected in the miraculous--and we will experience the limitless nature of our wild God.

A New York Times bestseller! From the celebrated author of Nickel and Dimed, Barbara Ehrenreich explores how we are killing ourselves to live longer, not better. A razor-sharp polemic which offers an entirely new understanding of our bodies, ourselves, and our place in the universe, NATURAL CAUSES describes how we over-prepare and worry way too much about what is inevitable. One by one, Ehrenreich topples the shibboleths that guide our attempts to live a long, healthy life -- from the importance of preventive medical screenings to the concepts of wellness and mindfulness, from dietary fads to fitness culture. But NATURAL CAUSES goes deeper -- into the fundamental unreliability of our bodies and even our "mind-bodies," to use the fashionable term. Starting with the mysterious and seldom-acknowledged tendency of our own immune cells to promote deadly cancers, Ehrenreich looks into the cellular basis of aging, and shows how little control we actually have over it. We tend to believe we have agency over our bodies, our minds, and even over the manner of our deaths. But the latest science shows that the microscopic subunits of our bodies make their own "decisions," and not always in our favor. We may buy expensive anti-aging products or cosmetic surgery, get preventive screenings and eat more kale, or throw ourselves into meditation and spirituality. But all these things offer only the illusion of control. How to live well, even joyously, while accepting our mortality -- that is the vitally important philosophical challenge of this book. Drawing on varied sources, from personal experience and sociological trends to pop culture and current scientific literature, NATURAL CAUSES examines the ways in which we obsess over death, our bodies, and our health. Both funny and caustic, Ehrenreich then tackles the seemingly unsolvable problem of how we might better prepare ourselves for the end -- while still reveling in the lives that remain to us.

Exposes the downside of America's penchant for positive thinking, which the author believes leads to self-blame and a preoccupation with stamping out "negative" thoughts on a personal level, and, on a national level, has brought on economic disaster.

Our perception of God makes a difference in every crevice of our character, from our inner anxieties to our public conversations. It determines whether we're trusting or suspicious, whether we're happy or discontent - and whether or not we can rely on God matters mightily on the day of our death. Mark Buchanan's third book continues his penetrating exploration of the God we worship. Bravely and honestly, he poses the direst question of human existence: Can God be trusted? It's life drunk deeply, lived to the hilt--where we walk with the God who is surprising, dangerous, and mysterious. It's the terrain where God doesn't make

sense out of our disasters and our boredom, but keeps meeting us in the thick of them. But unless we trust in His character, we'll never venture in. We will sit at the stream all day, dying of thirst, but not daring to drink. To follow God is to drink and drink from the stream, even if it means—especially if it means—getting swallowed up. Let Mark Buchanan show you the entrance to the Holy Wild, where you can live face-to-face with the beautiful, dangerous God of creation.

The New York Times bestselling work of undercover reportage from our sharpest and most original social critic, with a new foreword by Matthew Desmond, author of Evicted Millions of Americans work full time, year round, for poverty-level wages. In 1998, Barbara Ehrenreich decided to join them. She was inspired in part by the rhetoric surrounding welfare reform, which promised that a job—any job—can be the ticket to a better life. But how does anyone survive, let alone prosper, on \$6 an hour? To find out, Ehrenreich left her home, took the cheapest lodgings she could find, and accepted whatever jobs she was offered. Moving from Florida to Maine to Minnesota, she worked as a waitress, a hotel maid, a cleaning woman, a nursing-home aide, and a Wal-Mart sales clerk. She lived in trailer parks and crumbling residential motels. Very quickly, she discovered that no job is truly "unskilled," that even the lowliest occupations require exhausting mental and muscular effort. She also learned that one job is not enough; you need at least two if you int to live indoors. Nickel and Dimed reveals low-rent America in all its tenacity, anxiety, and surprising generosity—a land of Big Boxes, fast food, and a thousand desperate stratagems for survival. Read it for the smoldering clarity of Ehrenreich's perspective and for a rare view of how "prosperity" looks from the bottom. And now, in a new foreword, Matthew Desmond, author of Evicted: Poverty and Profit in the American City, explains why, twenty years on in America, Nickel and Dimed is more relevant than ever.

John Eldredge revises and updates his best-selling, renowned Christian classic. God designed men to be dangerous, says John Eldredge. Simply look at the dreams and desires written in the heart of every boy: To be a hero, to be a warrior, to live a life of adventure and risk. Sadly, most men abandon those dreams and desires-aided by a Christianity that feels like nothing more than pressure to be a "nice guy." It is no wonder that many men avoid church, and those who go are often passive and bored to death. In this provocative book, Eldredge gives women a look inside the true heart of a man and gives men permission to be what God designed them to be-dangerous, passionate, alive, and free.

“We walked toward the part of the library where the air smelled as if it had been interred for years.... Finally, we got to the hallway where the wooden floor was the creakiest, and we sensed a strange whiff of excitement and fear. It smelled like a creature from a bygone time. It smelled like a dragon.” Thirteen-year-old Juan’s favorite things in the world are koalas, eating roast chicken, and the summer-time. This summer, though, is off to a terrible start. First, Juan’s parents separate and his dad goes to Paris. Then, as if that wasn’t horrible enough, Juan is sent away to his strange Uncle Tito’s house for the entire break! Uncle Tito is really odd: he has zigzag eyebrows; drinks ten cups of smoky tea a day; and lives inside a huge, mysterious library. One day, while Juan is exploring the library, he notices something inexplicable and rushes to tell Uncle Tito. “The books moved!” His uncle drinks all his tea in one gulp and, sputtering, lets his nephew in on a secret: Juan is a Princeps Reader—which means books respond magically to him—and he’s the only person capable of finding the elusive, never-before-read Wild Book. Juan teams up with his new friend Catalina and his little sister, and together they delve through books that scuttle from one shelf to the next, topple over unexpectedly, or even disappear altogether to find The Wild Book and discover its secret. But will they find it before the wicked, story-stealing Pirate Book does?
