| <p>This book provides an in-depth analysis of the unique structure of the Nigerian popular music industry. It explores the dissonance between copyright ' s thematic support for creative autonomy and the practical ways in which the law allows singer-songwriters ' (performing authors) creative autonomy to be subverted in their contractual relationships with record labels. The book establishes the concept of creative autonomy for performing authors as a key criterion for sustainable economic development, and makes innovative legal and policy recommendations to help stakeholders preserve it.</p> <p>An incredible collection of vibrant Nigerian record cover designs from the second half of the 20th century, most of which have never been seen outside of Africa This unique large-format book features hundreds and hundreds of unique and stunning record sleeve designs from Nigeria that span a period from the country's independence in 1960 through much of the second half of the 20th century—a time in which Nigerian artists and the Nigerian music industry thrived both at home and abroad. During this period, high-profile Nigerian artists such as Fela Kuti, King Sunny Ade, Sonny Okosun, Haruna Ishola, Oriental Brothers International Band, Tony Allen, Bfo and Chief Ebenezer Obey became national and international stars. Many more Nigerian artists established successful careers at home and yet remain virtually unknown outside of Nigeria to this day. This book features the most important Nigerian artists both at home and abroad (as well as many of those that have remained unknown outside of the country), bringing together a vast array of rare, classic and stunning visual sleeve designs that document more than 50 years of the amazing musical, graphic art and social history of Nigeria.</p> <p>First published in 1971, this major bibliography devoted to Africa ' s most populous country – Nigeria – is therefore a timely contribution which must be welcomed by all. The Bibliography of Nigeria contains over 5,400 entries in archaeology, all branches of anthropology, linguistic and relevant historical and sociological studies. Many of the entries carry indicative or informative annotations which have greatly enhanced the usefulness of the work. The history and culture of Africa constitutes a rich area of study and research which is attracting an ever-increasing number of scholars the world over. The new impetus which African studies is receiving in the major centre of learning today has added urgency to the long-neglected problem of bibliographical control of the vast literature. The dearth of bibliographies in the field of African studies has been a main source of frustration to all those working in this area. The book is divided into two parts: part one deals with Nigeria as a whole, and lists general works or those concerned with several regions or several ethnic groups. Part two is devoted to the various ethnic groups. An analytical table of contents, a comprehensive ethnic index, an author index and an index of Islamic studies, together with generous cross-referencing, ensure ready and easy location of individual entries.</p> <p>As the single most populous nation in Africa, Nigeria recently overtook South Africa as the largest economy on the continent. Natural resources, oil and gas in particular, comprise the country ' s single largest revenue-earner but the 170m person economy also has seen significant activity in recent years into the industrial, financial, telecoms and – as of 2013 – power sectors. Hydrocarbons reserves have traditionally attracted the vast majority of domestic and foreign investment in Nigeria. Oil production capacity has remained at roughly 2.5m barrels per day (bpd) since the start of 2000, although output fell to 2.2m bpd on average in 2012. Still, the country has long operated below its true potential and government efforts in recent years have sought to increase local value addition, by boosting refining capacity and minimising theft and bunkering. The country ' s banking sector has been through a significant shake-up as well, resulting in a far healthier and more robust financial industry, while reforms in the telecoms and agricultural sectors have strengthened medium-term prospects.</p> <p>Half a century of music making in Nigeria has indeed witnessed giant strides, development, transformation, assimilation, and acculturation. This book succinctly presents a holistic discourse of musicality in Nigeria from the 1960s through the technological age of the 21st century transmitted through European and American cultures. It examines cogent topics such as traditional and popular music, art music, church music, choral activities, composers and their works, performance practices, maintenance of musical instruments, the impact of radio and television stations, feminine quantum leaps, music publishing, music technology, archival centers, copyright society, Nollywood music, and music entrepreneurship.</p> <p>Written by leading experts in African studies, this broad introduction to Nigeria follows the history of the republic from the early period to the present day.
