The data on the number of listings - in both sale and rental markets - also confirms the picture so far that the housing market appears to be avoiding major disruption. The figure below updates the one presented in the last commentary to include July figures. It shows that in the sales market, for example, 2020 saw as many homes put up for sale as any year between 2015 and 2019. Similarly, the ...

The first wave of that extra supply - from 2012 to 2016 - was largely the second-hand market recovering from the shock of prices halving in the previous five years. The second wave of additional supply is, at least in part, a story of the construction of new homes recovering. There were over 10,000 transactions involving newly-built homes in 2018 and the figure for 2019 looks like being very ...
