Sleeping Giants Audiobook is a popular Science Fiction novel written by Sylvain Neuvel. The book was originally published in 2016. The book is (1st) first book in the Themis Files Series. The genre of the book is Science Fiction, Novel. It has a rating of 3.8 Star Review on GoodReads. Plot Review:

"17 years ago: A girl in South Dakota falls through the earth, then wakes up dozens of feet below ground on the palm of what seems to be a giant metal hand. Today: She is a top-level physicist leading a team of people to understand exactly what that hand is, where it came from, and what it portends for humanity. A swift and spellbinding tale told almost exclusively through transcriptions of interviews conducted by a mysterious and unnamed character, this is a unique debut that describes a hunt for truth, power, and giant body parts"--

A page-turning debut in the tradition of Michael Crichton, *World War Z*, and *The Martian*, *Sleeping Giants* is a thriller fueled by an earthshaking mystery—and a fight to control a gargantuan power. A girl named Rose is riding her new bike near her home in Deadwood, South Dakota, when she falls through the earth. She wakes up at the bottom of a square hole, its walls glowing with intricate carvings. But the firemen who come to save her peer down upon something even stranger: a little girl in the palm of a giant metal hand. Seventeen years later, the mystery of the bizarre artifact remains unsolved—its origins, architects, and purpose unknown. Its carbon dating defies belief; military reports are redacted; theories are floated, then rejected. But some can never stop searching for answers. Rose Franklin is now a highly trained physicist leading a top secret team to crack the hand's code. And along with her colleagues, she is being interviewed by a nameless interrogator whose power and purview are as enigmatic as the provenance of the relic. What's clear is that Rose and her compatriots are on the edge of unraveling history's most perplexing discovery—and figuring out what it portends for humanity. But once the pieces of the puzzle are in place, will the result prove to be an instrument of lasting peace or a weapon of mass destruction? Praise for *Sleeping Giants* "As high-concept as it is, *Sleeping Giants* is a thriller through and through. . . . One of the most promising series kickoffs in recent memory, [and] a smart demonstration of how science fiction can honor its traditions and reverse-engineer them at the same time."—NPR "Neuvel weaves a complex tapestry with ancient machinery buried in the Earth, shadow governments, and geopolitical conflicts. But the most surprising thing about the book may just be how compelling the central characters are in the midst of these larger-than-life concepts. . . . I can't stop thinking about it."—*Chicago Review of Books* "A remarkable debut. . . . Reminiscent of Max Brooks's *World War Z*, the story's format effectively builds suspense."—*Library Journal* (debut of the month) "This stellar debut novel. . . masterfully blends together elements of sci-fi, political thriller and apocalyptic fiction. . . . Pacific Rim meets *The Martian* in the explosive follow-up to *Sleeping Giants* ("One of the most promising series kickoffs in recent memory."—NPR) and *Waking Gods* ("Pure, unadulterated literary escapism."—*Kirkus Reviews*). Brilliant scientist Rose Franklin has devoted her adult life to solving the mystery she accidentally stumbled upon as a child: a huge metal hand buried beneath the ground outside Deadwood, South Dakota. The discovery set in motion a cataclysmic chain of events with geopolitical ramifications. Rose and the Earth Defense Corps raced to master the enigmatic technology, as giant robots suddenly descended on Earth's most populous cities, killing one hundred million people in the process. Though Rose and her team were able to fend off the attack, their victory was short-lived. The mysterious invaders retreated, disappearing from the shattered planet. . . . but they took the scientist and her crew with them. Now, after nearly ten years on another world, Rose returns to find a devastating new war—this time between humans. America and Russia are locked in combat, fighting to fill the power vacuum left behind after the invasion. Families are torn apart, friends become bitter enemies, and countries collapse in the wake of the battling superpowers. It appears the aliens left behind their titanic death machines so humankind will obliterate itself. Rose is determined to find a solution, whatever it takes. But will she become a pawn in a doomsday game no one can win? Praise for *Only Human* "Packing a surprisingly powerful thematic punch, this novel is an addictive blend of science fiction, apocalyptic thriller, and chillingly timely cautionary tale. Two (giant, robotic) thumbs up!"—*Kirkus Reviews* "Boasting a winning combination of briskly paced action and futuristic dystopia tempered by cautious optimism, *Only Human* brings a fitting, satisfying end to the Themis Files series."—*RT Book Reviews* "This action-packed tale with apocalyptic stakes is a fitting finale to this wonderfully cinematic series."—*Publishers Weekly* "Series fans will be eager for Neuvel's ever-so-satisfying conclusion to his rip-roaring science-fiction adventure tale."—*Booklist* Don't miss any of The Themis Files by Sylvain Neuvel: SLEEPING GIANTS | WAKING GODS | ONLY HUMAN

In the gripping sequel to *Sleeping Giants*, Sylvain Neuvel's innovative series about human-alien contact takes another giant step forward. "Sleeping Giants may have debuted his thrilling saga, but *Waking Gods* proves that Neuvel's scope is more daring than readers could have imagined."—Paste As a child, Rose Franklin made an astonishing discovery: a giant metallic hand, buried deep within the earth. As an adult, she's dedicated her brilliant scientific career to solving the mystery that began that fateful day. Why was a titanic robot of unknown origin buried in pieces around the world? Years of investigation have produced intriguing answers—and even more perplexing questions. But the truth is closer than ever before when a second robot, more massive than the first, materializes and lashes out with deadly force. Now humankind faces a nightmare invasion scenario made real, as more colossal machines touch down across the globe. But Rose and her team at the Earth Defense Corps refuse to surrender. They can turn the tide if they can unlock the last secrets of an advanced alien technology. The greatest weapon humanity wields is knowledge in a do-or-die battle to inherit the Earth. . . . and maybe even the stars. As a child Rose Franklin made an astonishing discovery - a huge metallic hand, buried deep in the earth. She has since focused her scientific career on uncovering everything about the hand and the other gigantic body parts found scattered about the globe. When another robot is discovered and lashes out, Dr Franklin is closer to learning its secrets than ever before. But as more machines appear, earth looks set for an invasion for which it is colossally unprepared. Mankind's only chance is for Rose and her team to uncover the mysteries of the ancient technology or the earth might be lost to them forever . . .

Germany, 1945. Mia, a nineteen-year-old girl, is sent by the OSS to find Wernher von Braun. Her mission- stop the Russians getting hold of Germany - and the world's - foremost rocket scientist. Von Braun is suspicious. And so he should be. For Mia is no ordinary girl. She only looks human. And helping the Allies win the Second World War is but one part of her plan. Because there's an even darker conflict on Earth. A secret struggle thousands of years old. It has engulfed and taken generations of Mia's people. But can the firing of rockets finally bring about its end? Can Mia, as the last of her kind, bring the stars down to earth? And if she succeeds, what will happen to us?

Preorder the thrilling new instalment in a secret history of our world like no other. . . . The First Rule is the most important: 'Always run, never fight'. Over 100 generations, Mia's family has shaped Earth's history to push humanity to the stars, making brutal, wrenching choices along the way. And now Mia finds herself about to help launch the first people into space. She can't take them to the stars, not quite yet. But with her adversary almost upon her, and with the future of the planet at stake, it's becoming clearer that obeying the First Rule is no longer an option. For the first time since her line's first generation, Mia will have to choose to stand her ground, knowing that the overwhelming odds mean that she risks not only her bloodline, but also the future of the human race. Showing that truth is stranger than fiction, Sylvain Neuvel weaves a sci-fi thriller reminiscent of Blake Crouch and Andy Weir in *Until the Last of Me*, blending a fast-moving, darkly satirical look at the 1960s space race with an exploration of the amorality of progress and the nature of violence. Praise for Sylvain Neuvel 'It's fascinating to see how Neuvel weaves together fact and fiction. . . . a blast. Seriously clever' - SFX 'An alt-history with a difference. Traces the true story of the development of rocket science but adds an alien-conspiracy-theory edge. . . . Good fun' - Guardian 'Wry narration, wired action. . . . Fans of alternate history and intelligent sci-fi will love this' - Publishers Weekly

In nine poignant stories spiked with humor and intelligence, Chitra Banerjee Divakaruni captures lives at crossroad moments—caught between past and present, home and abroad, tradition and fresh experience. A widow in California, recently arrived from India, struggles to adapt to a world in which neighbors are strangers and her domestic skills are deemed superfluous in the award-winning "Mrs. Dutta Writes a Letter." In "The Intelligence of Wild Things," a woman from Sacramento visits her brother in Vermont to inform him that back in Calcutta their mother is dying. And in the title story, a painter looks to ancient myth and the example of her grandmother for help in navigating her first real crisis of faith. Knowing, compassionate and expertly rendered, the stories in *The Unknown Errors of Our Lives* depict the eternal struggle to find a balance between the pull of home and the allure of change.

A harrowing sci-fi thriller that #1 *New York Times* bestselling author Pittacus Lore proclaimed "Powerful and gripping." This bold and astonishing novel about identity, unnerving connections, tortured romance, and facing our worst nightmares is made for fans of Veronica Roth, Stephen King, and Justin Cronin. The Arclight is the last refuge in a post-apocalyptic world consumed by terrifying creatures called the Fade. No one crosses the wall of light that keeps the last human survivors safe. There's nothing else left and nowhere to go. Or so they thought, until Marina, a lone teenage girl, stumbles out of the Dark. Marina doesn't remember who she is, where she came from, or how she survived. And the Fade want her back. When one of them infiltrates the compound and recognizes Marina, she begins to unlock secrets she didn't even know she had. Marina knows she's an outsider, but she'll do anything to protect those who saved her. Whether they want her help or not.
