They Found Atlantis is an adroit (extremely well crafted) piece of fiction based as are many novels on experiences and scientific discoveries. Dennis Wheatley crafts a fictional story of consummate perfection around the earliest attempts to dive on an area of the Atlantic Ocean near Madiera, called the Azores. It's early 19

They Found Atlantis (Lost World, #1) by Dennis Wheatley

THEY FOUND ATLANTIS is a pretty good story, but for a really great novel about the lost continent Conan Doyle did it much better in THE MARACOT DEEP a decade earlier. It's interesting to compare the differing ideas on how the sunken continent survived underwater.

EVIDENCE of Britain's very own 'Atlantis' has been found deep in the North Sea as scientists think they have discovered two Stone Age settlement sites on the banks of a drowned ancient river.

East Britain's Atlantis' Found off Norfolk coast - after ...

According to one British company, the lost city of Atlantis has been found in Spain. Merlin Burrows, a firm of satellite experts, say they have spotted remnants which match the descriptions in Plato. The firm promises that it "find anything that has been lost, forgotten or hidden with pin-point accuracy.". Bruce Blackburn of Merlin Burrows told Yahoo News in late November 2018, "We've got a body of evidence that we've presented, and we have a whole host of proof points, and we're ...

Atlantis: for centuries the magic of that name has haunted man's imagination. Now, an incredible expedition is being prepared. Its destination: the final resting place of the ancient gold-encrusted city - one mile beneath the surface of the sea. For the lovely Camilla and her band of adventurers the days to come are full of danger. Ahead lies the silence of the unknown Deep - and a nightmare of terror and betrayal. "Dennis Wheatley has conceived one of the most amazing tales since the days of Jules Verne and Wells...boredom vanishes with the wave of Wheatley's magic pen." -Los Angeles Times

Marine explorer Dirk Pitt faces off against an elite army from an era gone-by in order to uncover the secrets of an ancient civilization in this #1 New York Times-bestselling series. A group of anthropologists uncover strange inscriptions on the wall of a Colorado mine just as an explosion traps them deep within the earth. But their work won't stay buried long. Dirk Pitt is on hand during the blast and quick to initiate a rescue operation. He is then tapped to lead a research crew on behalf of the U.S. National Underwater and Marine Agency to further study these uncanny artifacts. And that's when his ship is set upon and nearly sunk by an impossibility—a vessel that should have died 56 years before. Clearly, another group knows about the relics of this long-forgotten but highly-advanced seafaring culture. And they'll stop at nothing to keep the rest of the world in the dark.

A scholarly approach to the Atlantis myth attempts to uncover the truth about the "lost" civilization and examines excavations at Thera, in the present-day Mediterranean.

Delve into an ancient mystery and witness the unveiling of the most complete and persuasive evidence for the real location of the lost empire of Atlantis. More than two thousand years ago, Plato laid out a series of cryptic clues about the location of Atlantis. Since then, countless experts have tried to crack his code. Today, some experts claim Atlantis lies under the volcanic rocks of Santorini. Others place it in the Bermuda Triangle or off the coast of Africa or say it vanished forever beneath the waves of the Atlantic Ocean. But what if Atlantis is closer than we think? What if we could walk the streets of its ancient capital today? After a twenty-year forensic examination of Plato's writings, Peter Daughtrey believes we can do just that. Having matched an unprecedented number of Plato's clues to a modern locale, Daughtrey pinpoints the exact location of the once-glittering capital city of Atlantis and outlines the full reach of the empire. Daughtrey's quest takes him from the dusty stone quarries of Portugal and the hieroglyphs of Egyptian temples to the newly refurbished museums of Baghdad. Along the way, he unearths long-forgotten, vitally significant artifacts, pieces together sensational evidence of a lost alphabet, and identifies today's descendants of this early civilization—and even reveals the location of another undersea settlement from the empire of Atlantis. Hailed as "an intriguing, thought-provoking read" by Graham Hancock, the bestselling author of Fingerprints of the Gods, Atlantis and the Silver City is a detailed and accurate account of an adventurous journey of discovery, told with enthusiasm and verve.

Take Plato's account of Atlantis and stir in myths of Bimini Island's shape shifting ancestors, toss liberally with a mysteriouss seabed. Add curious scuba divers, puzzled scientists and an array of psychics. The recipe is one of intrigue, argument and obsession. Sirena, a Florida mermaid actress, adds deadly to the mix.

The book "I Found Atlantis" has solved the Mystery of Atlantis. The research shows that Atlantis, The Garden of Eden, and Noah's Ark all occurred at the same time, place, and were the same people. In 4,243 BC an Egyptian astronomer discovered that the star "Sirius" rose at sunrise. This caused the earth to shift on its axis causing the North Pole to tilt toward the sun. The glaciers melted and the water level rose in the Atlantic Ocean. It reached its zenith 3,700 BC and submerged Atlantis. Great Britain was once known as Atlantis. Experience the first "outrageous adventure with a wild dose of the supernatural" (Clive Cussler, New York Times bestselling author) in the New York Times bestselling Atlantis trilogy, following archeologist Conrad Yeats, his father, and linguist Serena Serghetti as they search for the lost city of Atlantis. During a top secret dig in Antarctica, the United States government discovers a stunning and ancient secret: the legendary lost city of Atlantis. Dr. Conrad Yeats, the foremost authority on megalithic architecture, is brought in along with his estranged father, General Griffin Yeats, and his former lover, the linguist Serena Serghetti, to explore this astonishing civilization hidden beneath the ice. But their investigation uncovers something shocking that threatens the very existence of humanity and together, they are thrust into a deadly race against the apocalypse. "Raising Atlantis grabs hold of you from the first page and pulls you into an astonishing world of scientific fact and fiction, suspense, and good old-fashioned adventure" (Nelson DeMille, New York Times bestselling author). Visit the official Raising Atlantis website at Raisingatlantis.com to unlock lost chapters and download free ebooks featuring Conrad Yeats and Serena Serghetti.

Long known as the classic work on the study of Atlantis, the author puts forth the idea that this was the true place where civilization began. The great philosopher, Plato, mentioned Atlantis, which is said to have been a great civilization that had sunk into the sea and disappeared. Subjects include Plato's Atlantis, destruction of Atlantis, deluge stories throughout history, inherited civilization, old and new world interaction, Atlantis in Genesis, origin of the alphabet, the kings of Atlantis become Greek gods, the pyramid, the cross, the Garden of Eden, Atlantean colonies, and much more. This one book has done more than any other in promoting the idea for the lost continent of Atlantis.
